Diabetics often experience skin breakdown, leading to wounds so severe that amputation is the only option. These wounds often start with this type of typical skin deterioration. Prompt treatment and continuing preventive care is essential.

Instructions for Use:

- 1) Cleanse area with Vitale Wound Cleanser Spray & pat dry.
- 2) Gently apply K5 Skin Nutrition Diabetic Skin Formula to the affected area.
- 3) Repeat twice daily.
- 4) When skin improves, continue using to prevent recurrence of breakdown.
