

K5 Diabetic Skin Formula: Fact Sheet for Healthcare Professionals

WHAT ARE THE BENEFITS OF K5 SKIN NUTRITION?

- Restores your skin's strength & natural elasticity.
- Moisturizes at a cellular level, revealing fresher, more youthful, skin.
- Shields your skin against environmental stress with natural anti-oxidants and anti-inflammatory agents.
- Improves the flow of nutrients to the skin.
- Boosts the skin's natural immune system to protect skin from free radicals & environmental damage.

WHAT MAKES K5 SKIN NUTRITION SO UNIQUE?

K5 Products have a focus on skin health & nutrition.

K5 has more vital ingredients than any other skin care product in the world. **K5** comprehensively feeds & nourishes the skin.

K5's proprietary technology helps fight dark areas...revealing new skin with soft even tones.

K5 Products hydrate and protect.

K5's unique airless packaging protects **K5** Skin Nutrition from exposure to air from the time of manufacturing until you are ready to apply. Minimizing exposure to air maximizes your skin care benefits.

K5 Products are paraben-free.

HOW DOES K5 SKIN NUTRITION WORK?

First and foremost, **K5** is a skin health product. With proper nutrition, skin is healthier.

K5 Skin Nutrition Products nourish your skin at the cellular level to revive and repair your skin.

In healthy skin, the surface layer, or epidermis, is completely rejuvenated in as short as 4 weeks.

The process of skin cell turnover transforms skin tone & texture as damaged skin cells are replaced by healthy, fresh cells regenerated by **K5's** powerful nutrients.

INSTRUCTIONS FOR USE:

- 1) Cleanse area with Vitale Wound Cleanser Spray & pat dry.
- 2) Gently apply **K5** Skin Nutrition Diabetic Skin Formula to the affected area.
- 3) Repeat twice daily.
- 4) When skin improves, continue using to prevent recurrence of breakdown.

K5 Skin Nutrition® ...Where Skin Health & Science Meet

Polypodium Leucotomos (PLE) changes the way your skin reacts to ultra-violet rays (UV). PLE is a potent anti-inflammatory that also boosts the skin's immune system.

Hyaluronic Acid (HA) is the best moisturizer for skin health. HA is a natural moisturizer already present in healthy skin, and K5 contains tiny molecules of HA to speed a moisturizing supplement to plump your skin.

Alpha Lipoic Acid helps the body make healthy new skin cells.

DMAE (dimethylaminoethanol) firms skin.

Ceramides increase healthy skin cell turnover, hold moisture, and soften dry rough skin.

Collagen Amino Acids stimulate production of new collagen and elastin, giving new skin strength & elasticity.

Flavonoids, derived from the world's healthiest foods, contain powerful anti-oxidants and enhance delivery of vital nutrients to the skin, improving clarity, color and tone.

Resveratrol is a natural anti-oxidant that is stable and potent. It also improves collagen & elastin synthesis.

Vitamin A stimulates cell growth and turnover.

Niacinamide (Vitamin B3) improves elasticity & enhances the skin's natural barrier function to erase discoloration and revive healthy tone and texture.

Vitamin B6 encourages oxygenation & reduces blemishes.

Vitamin C stimulates collagen synthesis, minimizing lines & scars. K5 uses a stable, long-lasting Vitamin C compound.

The natural Vitamin D used in K5 matches what your skin produces.

Vitamin E, known best as an anti-oxidant for topical skin care, also retains moisture by improving the skin's barrier function.

Vitamin K1 improves micro-circulation to the skin, reducing skin redness.

Vitamin K2 regulates the deposition of Calcium, keeping elastin from hardening and causing wrinkles.

Zinc promotes the growth of collagen and is necessary for cell growth and turnover.

Magnesium slows down the aging of skin.

Selenium is an anti-oxidant that increases skin elasticity and protects from UV rays.

Manganese helps enzymes function and helps boost the immune system.

Calcium is a building block for skin cells.
